SUMMARY

Motivated and detail-oriented software developer in the early stages of my career, with hands-on experience building web applications and a strong foundation in modern programming tools and best practices for 2 years. Eager to contribute to meaningful projects, grow within a supportive team, and continuously sharpen my skills. Recognized for being a quick learner, a strong team player, and someone who takes pride in delivering high-quality work with attention to details and consistency.

SKILLS

- Strong problem-solving
- Analytical skills
- Interpersonal Skills
- Communication
- Collaboration
- Leadership
- Critical thinking
- Attention to detail

WORK EXPERIENCE

NanleTech

Frontend Developer intern • March 2025 - Present

- Build and maintain responsive user interfaces under the guidance of senior developers, using modern frontend frameworks like React, Next.js, Typescript and Vite.
- Collaborate with cross-functional teams and contribute to feature implementation
- Participate in version control workflows with Git and GitHub, ensuring code quality and smooth collaboration across the development team.
- Engage in continuous learning and feedback loops to sharpen technical skills and stay up to date with current frontend trends.

NSIA - Nigeria Sovereign Investment Authority

NYSC January 2025 - November 2025

- Collect, clean, and analyze financial and corporate data using Excel to support reporting and decision-making.
- Create well-structured spreadsheets and dashboards for performance tracking and forecasting.
- Maintain strong attention to detail and organizational skills in managing sensitive data and informations.
- Pursue personal software development projects outside core responsibilities, continuously learning and building coding skills independently.

HerStories Africa

Founder & Software Developer - May 2025 – Present (Ongoing)

- Initiated and currently building a web-based platform dedicated to preserving and showcasing the history of great African women.
- Creating a digital archive to host scholarly and historical materials focused on African women's experiences and achievements.
- Designing the Hall of Voices, a visually immersive 3D hall of fame that features portraits and stories in an interactive format.
- Responsible for full-stack development, architecture design, and user experience optimization using modern tools and frameworks.
- Continuously refining the platform to support storytelling, research, and education through engaging digital experiences.
