SUMMARY

I am a results-driven Frontend Software Developer with a solid foundation in frontend development and technical problem-solving. I hold a Diploma in Software Engineering from AltSchool Africa and specialize in JavaScript and TypeScript as my primary programming languages.I have hands on experience building responsive, accessible, and user-centric web applications using modern frameworks and tools, including but not limited to: React, Next.js, and Tailwind CSS. I'm passionate about crafting intuitive digital experiences and writing clean, maintainable code that scales. I am currently seeking opportunities in Frontend Engineering where I can contribute, learn, and grow while delivering impactful solutions
